

While Meredith goes to school to pursue her master's degree, she would love to have something healthy other than the ready-made food at the grocery store. She doesn't like to eat a mix of food all at once, so she always likes to keep it basic. She's up for making food by herself but never knows what to do because there are a lot of things to make.

Meredith and a group of her friends decided to make an app to generate to show how to make a certain meal with, but you'd have to provide your current ingredients. If you don't have any it'll will suggest some meals with certain ingredients.

Phone with app

Phone with app

The application should be able to process all ingredients entered and display a healthy made meal for Meredith:

Phone with app

Meredith is finally happy with the results of the successful application she made with her friends, and she will use it everyday happily

• Now Meredith can go pursue her dreams with school and work with being healthy
